# BIZERBA

***Our strong checkweigher entry model ... CWDmaxx handles up to 250 packages per minute. With an IP54 protection it is the first choice for all dry applications of prepacked products***

**More information**  
High performance  
with a wide range of  
solutions and options.

### Product description

Dynamic checkweigher CWDmaxx is highly efficient, automated and the most cost-effective solution for 100% weight control.

Individual configuration options allow tailor-made solutions for many applications. CWD maxx is perfectly suitable for checking of prepacked products in accordance with German prepack regulations, exact control for static evaluations, completeness check, classification and for tendency control for automated filling processes.

All our checkweighers stand out due to user-friendly operation via color display, alphanumeric keyboard and efficient data management.

CWDmaxx 3000

### Highlights

- Maximum throughput: 188 to 250 packages per minute
- Weighing ranges from 10 g to 3000 g
- Can be combined with metal detector
