

Data sheet

VS12 A W

BIZERBA

Semi-automatic premium vertical slicer.

Ensures maximum hygiene and productivity due to touchless depositing and integrated portion scale.

More information
High performance with a wide range of solutions and options.

Product description

The vertical carriage of the VS12 A W ensures ergonomic, upright operation while providing an optimal view of the slicing result. This machine consists of a powerful blade drive. Thanks to an automatic depositing arm slices are laid out without manual handling and numerous depositing patterns allow optimal product presentation.

Optimize your operating processes with the integrated portion scale. Reduce walking distances which increases customer satisfaction. The membrane keyboard as well as the touch display for weight indication ensure easy and intuitive operation.

The depositing system entirely made of stainless steel can be easily and quickly disassembled for thorough and efficient cleaning.

VS12 A W

Highlights

- Integrated portion scale up to 1.5 kg / 2 or 5 g scale interval
- Hygienically perfect design: Disassembly without tools and dishwasher-safe Stainless steel and Ceraclean® attachment parts as well as a large distance between blade and motor tower for easy manual cleaning
- Fine adjustment of slice thickness between 0-3 mm
- Powerful Bizerba motor, optionally with intelligent motor control Emotion® for saving energy while the motor is even more powerful, low-noise operation and virtually no heating up of the depositing area
- Optional Ceraclean® surface refinement for easy cleaning
- Perfect, hygienic portions and stacks also directly onto paper or foil
- Minimized risk potential since entire slicing area is covered during blade sharpening procedure

Chain frame

Touch display

Options

- Ceraclean®: Surface refinement
- Emotion®: Motor control for load-dependant energy consumption
- Blade options: Ceraclean® blade, cheese blade, bread blade
- Remnant holder variants: smooth, checkered, with spikes
- Round platter
