BRAIN2 Capture

BIZERBA

BRAIN2 Capture - with this software you record and evaluate process data in a quick, easy and efficient manner. Now you achieve more than just collecting and saving data. With BRAIN2 Capture you can also provide information in detailed reports or via Web Service and CSV file.

More information
High performance
with a wide range of
solutions and options.

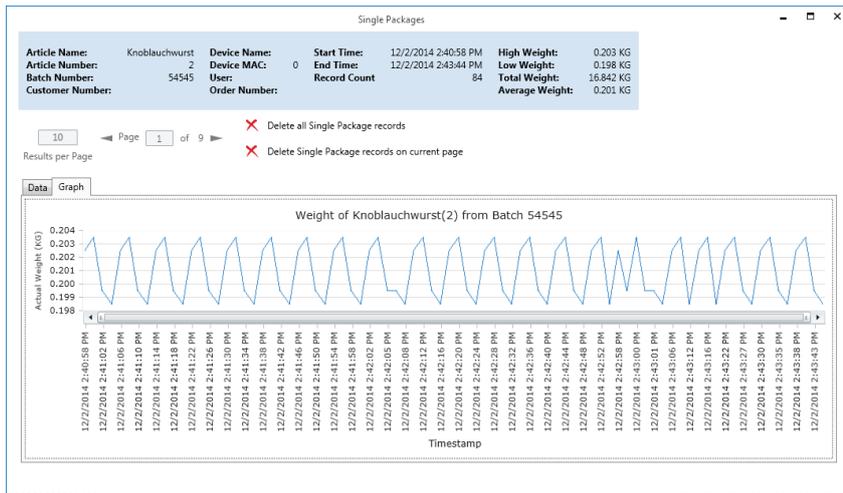

Product description

BRAIN2 Capture uses numerous standard functions in order to record and evaluate data of connected Bizerba equipment such as checkweighers, weigh price labelers and inspection systems. This software collects individual values, total data records, information on detected metal objects as well as metal detector audits and saves them in a central SQL database. Due to detailed reports as well as the provision of data via web service and CSV file, BRAIN2 Capture can be simply integrated in an existing process world.

Package Type	Article Name	Article Number	Number of Packs	Low Weight	High Weight	Total Weight	Pack Average	Record Count	Start Time	End Time
SinglePackage	Debrecoener	7	121	0.199 KG	0.204 KG	24.372 KG	0.201 KG	121	02.12.2014 15:27:11	02.12.2014 15:32:02
SinglePackage	Knoiblauchwurst	2	381	0.190 KG	0.224 KG	86.321 KG	0.203 KG	381	02.12.2014 14:37:03	02.12.2014 14:43:44
SinglePackage		84		0.198 KG	0.203 KG	16.842 KG	0.201 KG	84	02.12.2014 14:40:58	02.12.2014 14:43:44
SinglePackage		97		0.190 KG	0.224 KG	19.479 KG	0.201 KG	97	02.12.2014 14:37:03	02.12.2014 14:40:55
SinglePackage	Kochealami	5	331	0.199 KG	0.204 KG	67.304 KG	0.203 KG	334	02.12.2014 14:58:36	02.12.2014 15:17:40

Functional features

- Collection of individual data records, total data records, detected metal objects and metal detector audits
- Collected data can be exported as a CSV file (Excel).
- Web service as an interface for programmers
- Reporting as a PDF
 - Batch evaluation
 - Evaluation of daily production
 - Packages below nominal value
 - Give-away report
 - Rejected packages (metal detected)
 - Overview metal detector audit

Integration in business processes

BRAIN2 Capture represents your production: This software provides you with the collected production data of your Bizerba equipment via reports and various interfaces. Via a web service interface, data is accessible for IT staff, programmers or 3rd party software houses and thus for business processes. Besides individual data records, total data records or detected metal objects can be evaluated and further processed.
