

Data sheet

iL Economy 2000/4000 F/MP

BIZERBA

The load carriers of iL Economy series are adequate for rough industrial conditions despite their low construction. Their flexibility makes them universal usable - excellent weighing results are guaranteed.

More information
High performance
with a wide range of
solutions and
equipment variants.

Produkt description

The multi point load carriers iL Economy qualify for different weighing ranges and bearing loads up to 2000 kg or 4000 kg. They are predestined for the use in dry and wet zones. As coated version they offer the ideal solution for the logistics branche. The wet zone models utilize stainless steel for the weighing bridge as well as for the load cell. Load cells and connection box are used in the highest protection type in both versions.

Whether built-in, freestanding or deployed with one or two ramps, the iL Economy models are configured according to your requirements and offer outstanding weighing results in any lineup.

An additional advantage is that the iL Economy models are also available as Ex version und thus allows the use in explosive atmospheres of zones 1/21 and 2/22.

iL Economy 2000/4000 F/MP

Highlights

- Simple and flat construction
- In welded construction
- Low-maintenance and wear-resistant operation
- Optimal long-term accuracy
- Good shock- and vibration absorption and self-centering
- Weighing ranges
 - iL Economy 2000 F/MP: 600 - 1500 kg
 - iL Economy 4000 F/MP: 1500 - 3000 kg
- Nominal loads
 - iL Economy 2000 F/MP: up to 220 kg / up to 550 kg
 - iL Economy 4000 F/MP: up to 1100 kg

Options

- Explosion-proof model for zones 1/21 and 2/22
- Pit frame
- Drive up ramps
- Fixing plates
- Load plate in stud plate
- Ramps, also in extra long variant
