K-Class Flex II Pro

BIZERBA

Freely combinable components, networked functions and more performance. This is what the K-Class Flex II Pro series stands for. Implement new features or individual requirements. A powerful Intel® Quad Core processor and the large working memory make it possible. With their modular system and attractive design the Flex solutions also ideally integrate in your retail concept from an optical point of view.

More information
High performance with a wide range of solutions and options.

Product description

The Bizerba K-Class Flex II Pro series provides you with functions for the modern daily routine in retail: Weighing, labeling, advising customers and transactions are possible with this scale. Communicate information, advertising contents and cross selling campaigns via a brilliant customer display.

A powerful and open PC platform ensures high performance: The large RAM has sufficient memory to let you implement new features or individual requirements. Even the use of 3rd-party software is easily possible. Freely combine components such as displays, printer, CPU or load receptor. Use the Flex solutions with a cash register drawer as a powerful cash register system. Gain more freedom thanks to unhindered access to the sales counter. Enjoy ergonomic working. Even with a minimum of space.

K-Class Flex II Pro: Counter integration
